## NO RIDER POLICY

Due to changes in insurance regulations and increased security promoted by the Federal Motor Carrier Safety Administration, we are initiating a safety policy regarding riders in any equipment leased to and/or owned by:

### REMAC INC.

Effective immediately, no riders are permitted in any equipment. This will now be without exception.

We strive to provide our employees with exceptional job security and we can only continue to expand this company if we are extremely cautious regarding our safety practices.

Please acknowledge your understanding and commitment to this policy by signing, dating and returning this memo to the personnel department. This document will remain in your personnel file. Deviation from this policy is grounds for dismissal.
